

## Clark Forklift Part

Clark Forklift Part - Currently, there are at least 350,000 Clark lift trucks performing globally, and upwards of 250,000 operating in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 individual items fabricated for 20 unique models of forklifts and automated equipment. Your local Clark Seller is your total source for availability of all your parts needs supplied by Clark Totalift.

Clark's exceptional Parts Distribution Facilities are conveniently located in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to offer the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Internationally, Clark has one of the most amazing dealer support networks. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the materials handling industry.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional dedication to safety is currently a standard feature on every lift truck.

Clark's relentless effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the world to be certified with the globally approved quality standard ISO 9001 for every one of their manufacturing plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental restrictions, thus placing them in a dominant market position.

Clark has preferred the very economical and advantageous structure of "Lean Manufacturing" for its assembly plants and use of resources. This system was developed to acknowledge the most efficient method of manufacturing plant management and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing costs. The new value engineering agenda combines modern product development and delivers superior consumer support and service within the industry.
