

Meritor Parts

Meritor Part - Meritor is a leading international supplier that is proudly built on a 100 year custom of service and quality. They focus on a broad range of integrated systems, modules and parts to original machine makers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's distinctive energy and believes that this particular energy contributes to their competitive advantage within the worldwide operations. The business values all their customers and wants to ensure their success while anticipating their various needs. Meritor begins with a culture that values diversity of people and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred people, Meritor encourages collaboration and innovation amongst a team of experienced experts.

By just hiring future focused workers, Meritor strongly believes these top-caliber workers would be able to quickly adapt to changing environments and exhibit the commitment and performance required to achieve results in the competitive materials handling trade. The company empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor provides all of their employees different opportunities for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering which include drivelines, axles, suspension and braking systems intended for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of their international engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group who is committed to ensuring optimum development at their aftermarket distribution facilities and production plant which are located on 5 continents and in 19 nations.

The supplier development network is specially situated so as to support new business development. Regional teams are supported by global centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in every aspect of the company. The DFSS or likewise known as Design for Six Sigma ensures product reliability within each and every region. The team is likewise comprised of transactional Green Belts who use Six Sigma tools to business methods and implement lean methods.
