

Rockwell Parts

Rockwell Parts - The company of AxleTech International is a big supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to exceed and meet their customers' expectations for technology, delivery, quality and service. They believe in working within an atmosphere that encourages the utmost integrity with empowered teamwork, together with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious company and offering a safe environment for their employees to work in. Furthermore, they have implemented several programs in the corporation to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whatever comments or questions, as they are glad to promote and share this policy with a greater knowledge of their efforts. They are really committed to improving and preserving the environment. AxleTech has an EHS program which not only protects the natural environment but which also actively protects their workers and neighbors too.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in designing and manufacturing planetary axles meant for both commercial and military applications. These applications range from airport ground support to construction equipment. AxleTech specially designs axles to meet specific application demands. They have over one thousand various axle specs within their existing offering. With over 100+ years of history and skill, AxleTech proudly supplies the most complete solution for whatever of your axle requirements. The business is well known in various commercial and military applications. They offer complete axle assemblies used for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have further details which could be seen in the "ISAS" product collection.
